PROFILE

Frontend Developer with 3+ years of experience building responsive, performance-focused web interfaces and full custom dashboards using Laravel, React.js, and Next.js, alongside strong end-to-end CMS development experience across WordPress, Shopify, Squarespace, Wix, and other major platforms. Comfortable working across the full frontend stack — from custom UI components to complex, fully customized CMS builds — and uses AI-assisted tools (Claude Code, GitHub Copilot, Cursor) to accelerate delivery while writing clean, maintainable code.

SKILLS

- **Frontend Development:** HTML5, CSS3, JavaScript, React.js, Next.js, responsive UI development
- **Application Development:** Laravel (frontend/UI integration, custom dashboard development)
- **CMS Development:** WordPress, Shopify, Squarespace, Wix and other major platforms — theme development, deep customization, and custom-built solutions
- **Tools & AI-Assisted Development:** Git version control, Claude Code, GitHub Copilot, Cursor AI, ChatGPT — used to accelerate development, debugging, and code optimization

PROFESSIONAL EXPERIENCE

Senior CMS Developer | CiphersLab (Remote / On-site) *2026 – Present*

- Leading full-time CMS development projects across all major platforms — WordPress, Shopify, Squarespace, Wix and others — delivering heavy, fully custom builds rather than out-of-the-box templates.
- Handling complex client requirements end to end, including custom frontend work, platform-specific customization, and performance optimization.
- Using AI-assisted tools (Claude Code, GitHub Copilot) in the day-to-day workflow to speed up custom development without compromising code quality.

CMS Developer | MA Digiworld (Project-Based) *2025 – Present*

- Developed and customized websites remotely across multiple CMS platforms, improving layout, responsiveness, and overall user experience.

Frontend & CMS Developer | Tafsol Technologies *2024 – 2026*

- Built full custom admin dashboards and internal tools using Laravel frontend over a 2-year period, alongside multi-platform CMS development.
- Developed modern, reusable UI components using React.js and Next.js, focused on usability and performance.
- Leveraged AI tools (ChatGPT, Claude, GitHub Copilot, Cursor AI, Grok) to speed up development, debugging, and code optimization.

PROJECT HIGHLIGHTS

- Custom storefronts and websites delivered across retail, fashion, health/wellness, and services clients on multiple CMS platforms — full case studies and live links available on my portfolio site above.
- Internal Laravel-based dashboards and admin tools built during full-time role at Tafsol Technologies (project details confidential per company policy).

EDUCATION

B.S. in Computer Engineering *2020 – 2024*
Sir Syed University of Engineering and Technology
